16. Training checklist

Screenshots were taken from the live application. Open this file from admin **Help Center** to always use the latest copy.

1. What this website does

> Shubh Surgical is an online medicine store. Customers browse stock, add items to a cart, and place an order. The system creates a bill with a checkout QR. An administrator verifies payment, approves the order (this creates a Purchase Order), then marks it dispatched when ready. Admins also manage the catalogue, clients, employees, and reports.

End-to-end flow

1. Customer registers or signs in.
2. Customer adds medicines to the cart and clicks **Place order**.
3. A bill is created with status **pending** and a Checkout QR is shown.
4. Customer pays using the QR (any UPI app).
5. Admin opens **Orders**, confirms payment, and chooses **Approve** (PO generated) or **Reject**.
6. When stock is packed, admin marks the order **Dispatch**.

2. Demo / training logins

> Use these accounts in classroom or UAT. Do not use them as real customer credentials in production.

Role	Email	Password
Admin	admin@medishop.com	admin123
Customer	user@medishop.com	user123

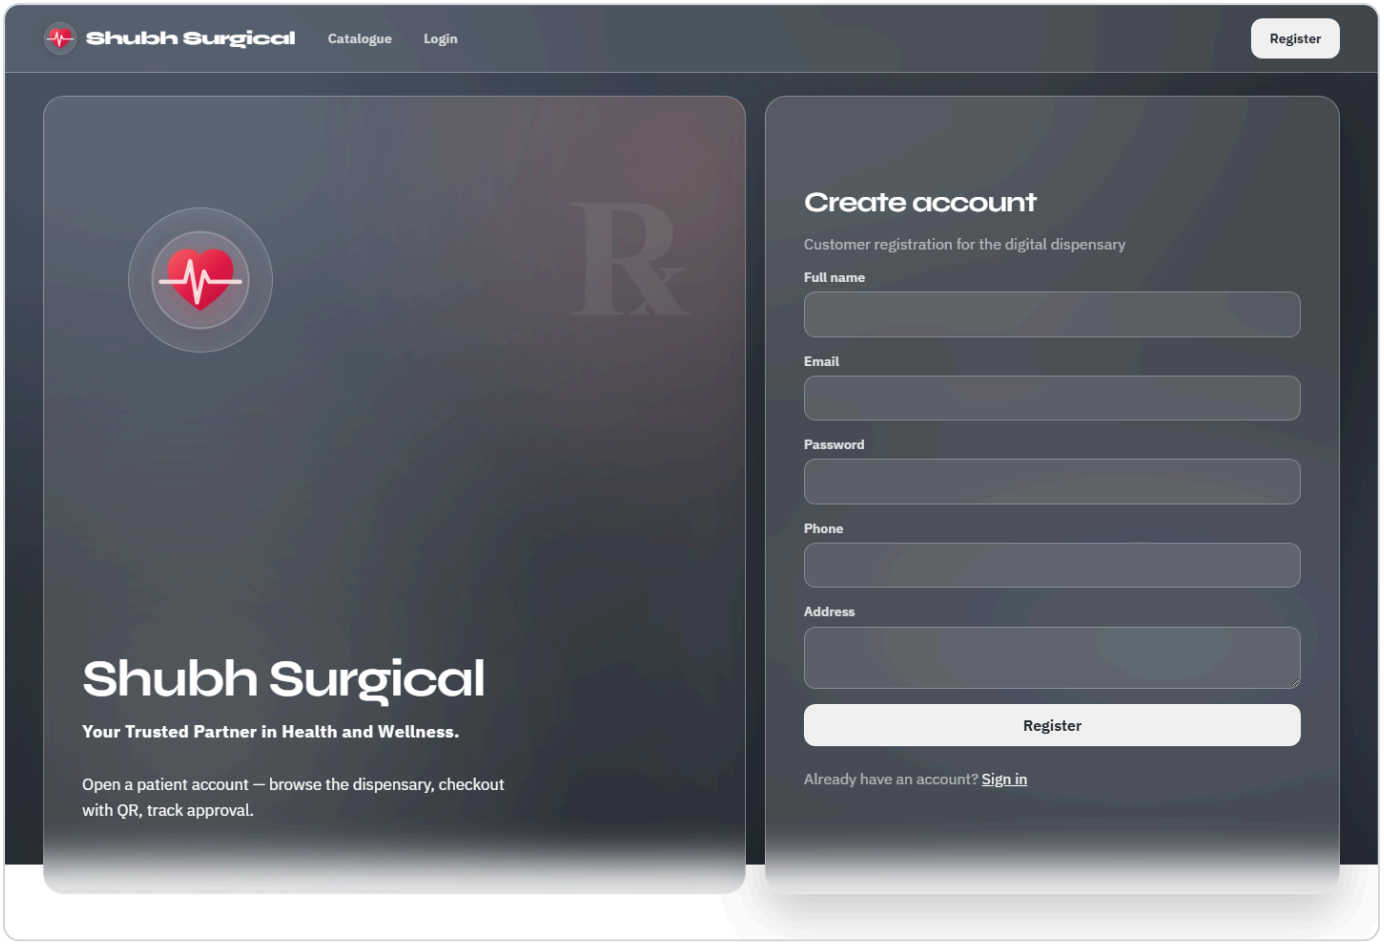

> On Sign in you can tap **Admin demo** or **User demo** to fill these values automatically.

3. Register

> The left panel matches Sign in: heart logo in a circle, brand name, and slogan Your Trusted Partner in Health and Wellness. New customers must register before checkout.

How to do it

1. Click **Register** in the top bar.
2. Enter full name, email, and a password of at least 6 characters.
3. Optionally add phone and address (used on bills and client records).
4. Click **Register**. You are signed in and taken to the shop.

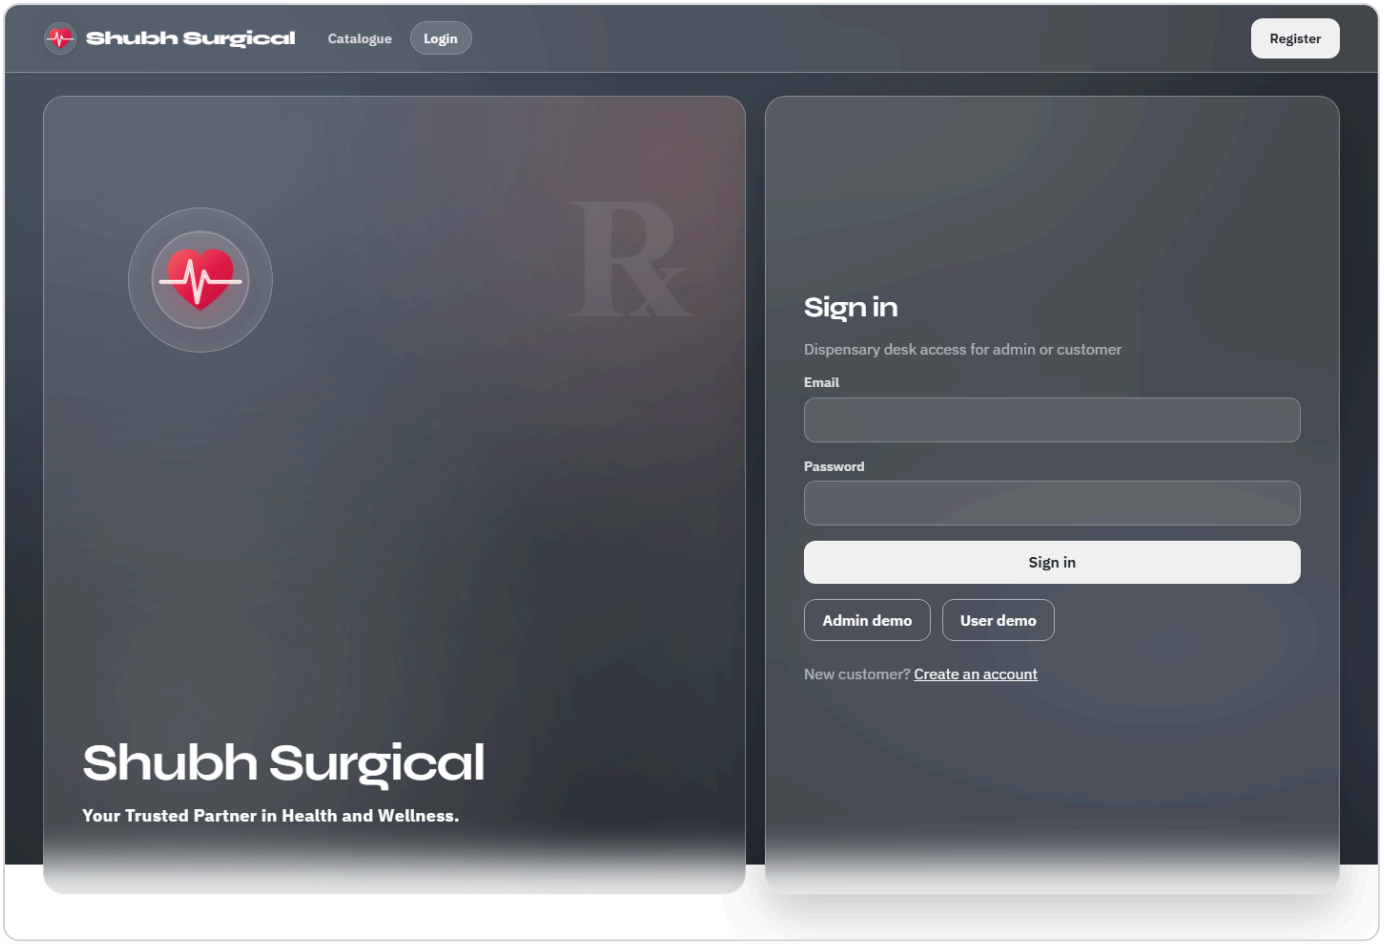

Screen: 3. Register

4. Sign in

> Returning customers and admins use the same Sign in screen. Admins land on the admin desk. A blocked customer cannot sign in.

How to do it

1. Click **Login** in the top bar.
2. Enter email and password, then click **Sign in**.
3. If the account is blocked, the site shows: *User is blocked now, please contact to admin*.
4. Use **Logout** in the top-right when the session is finished.

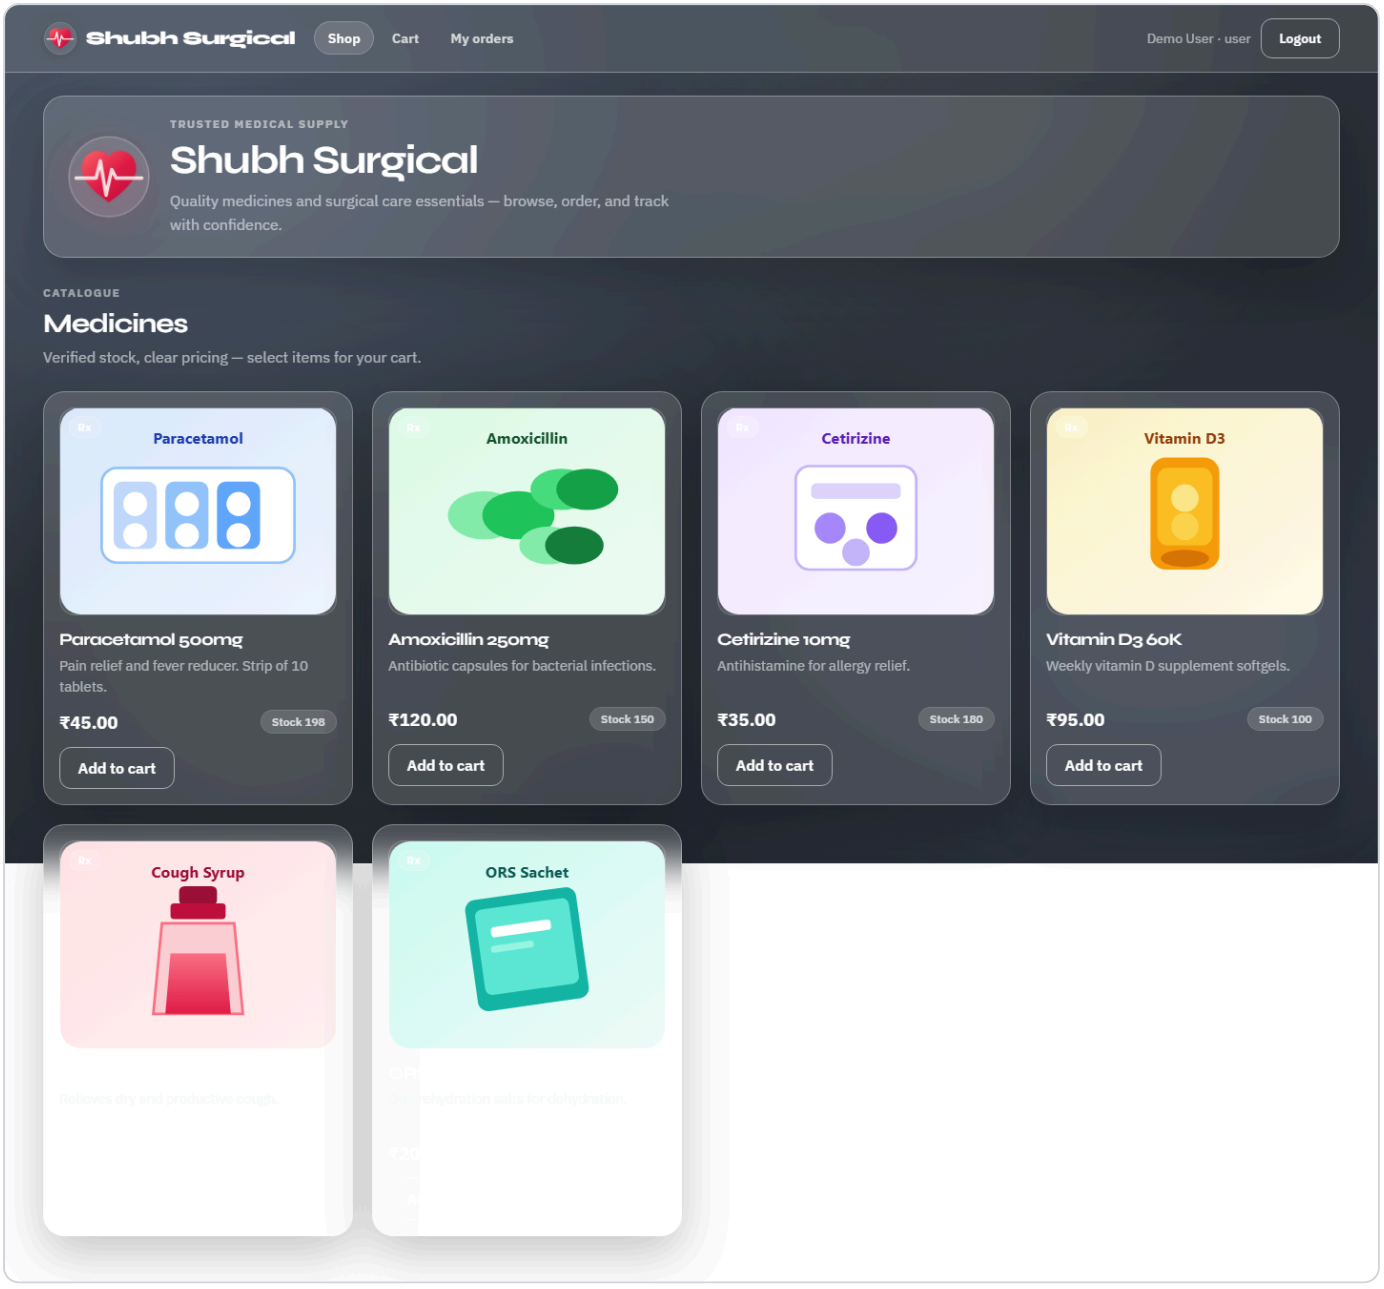

Screen: 4. Sign in

5. Browse catalogue and shop

> Guests can open Catalogue without signing in. After login, Shop lets customers add items to the cart. Admins see the catalogue but cannot add to cart.

How to do it

1. Guests: open **Catalogue**. Customers: open **Shop**.
2. Review image, description, price, and stock. Low stock is highlighted.
3. Click **Add to cart** on each required item.
4. The Cart badge in the top bar shows how many units are selected.

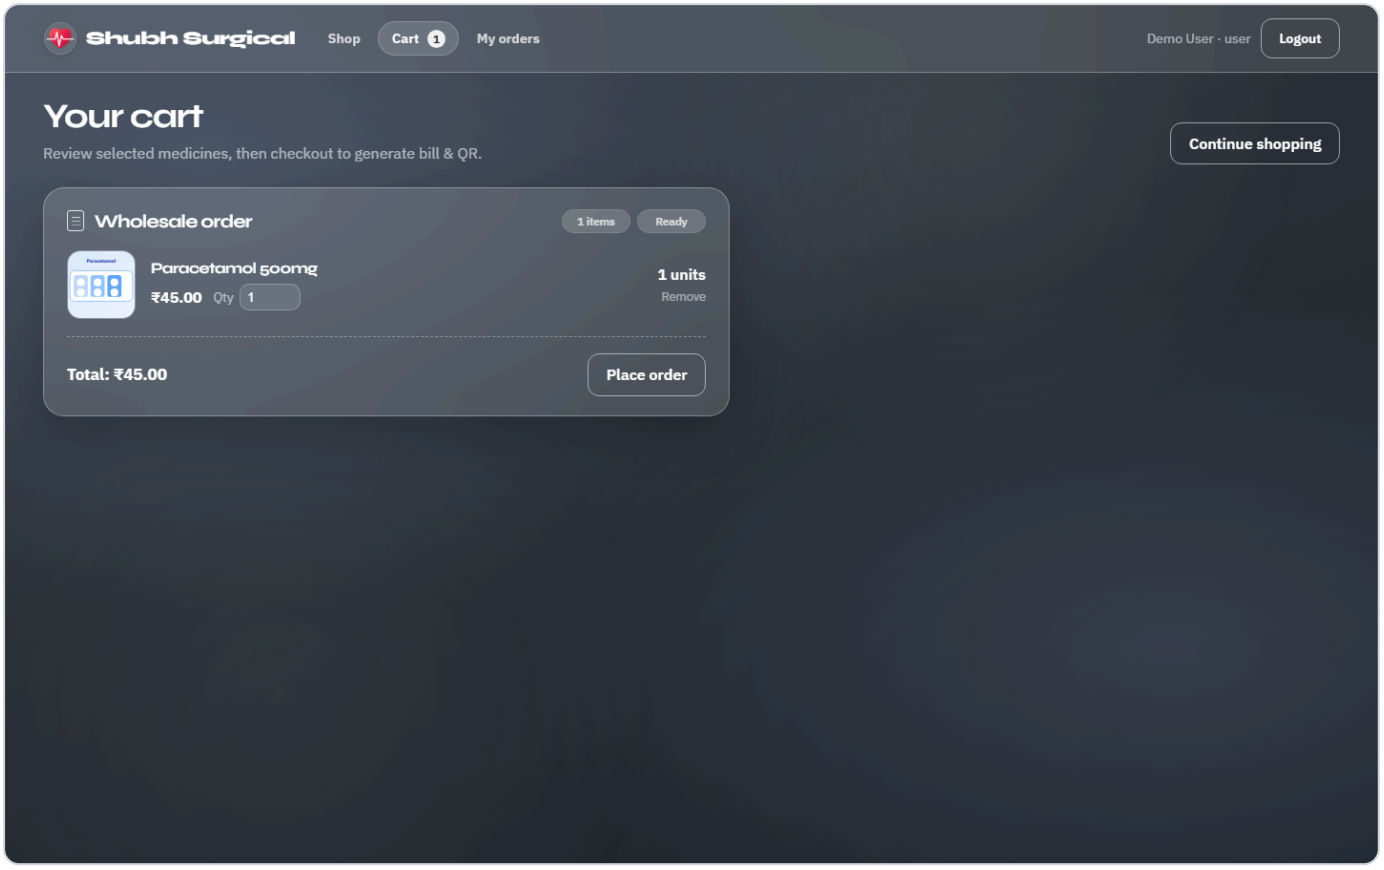

Screen: 5. Browse catalogue and shop

6. Cart and place order

> The cart is a wholesale-style order sheet. Quantity can be changed up to available stock. Checkout creates a bill and QR.

How to do it

1. Click **Cart** in the top bar.
2. Adjust Qty or click **Remove** if needed.
3. Confirm the total, then click **Place order**.
4. You are taken to the bill page. Status starts as **pending**.

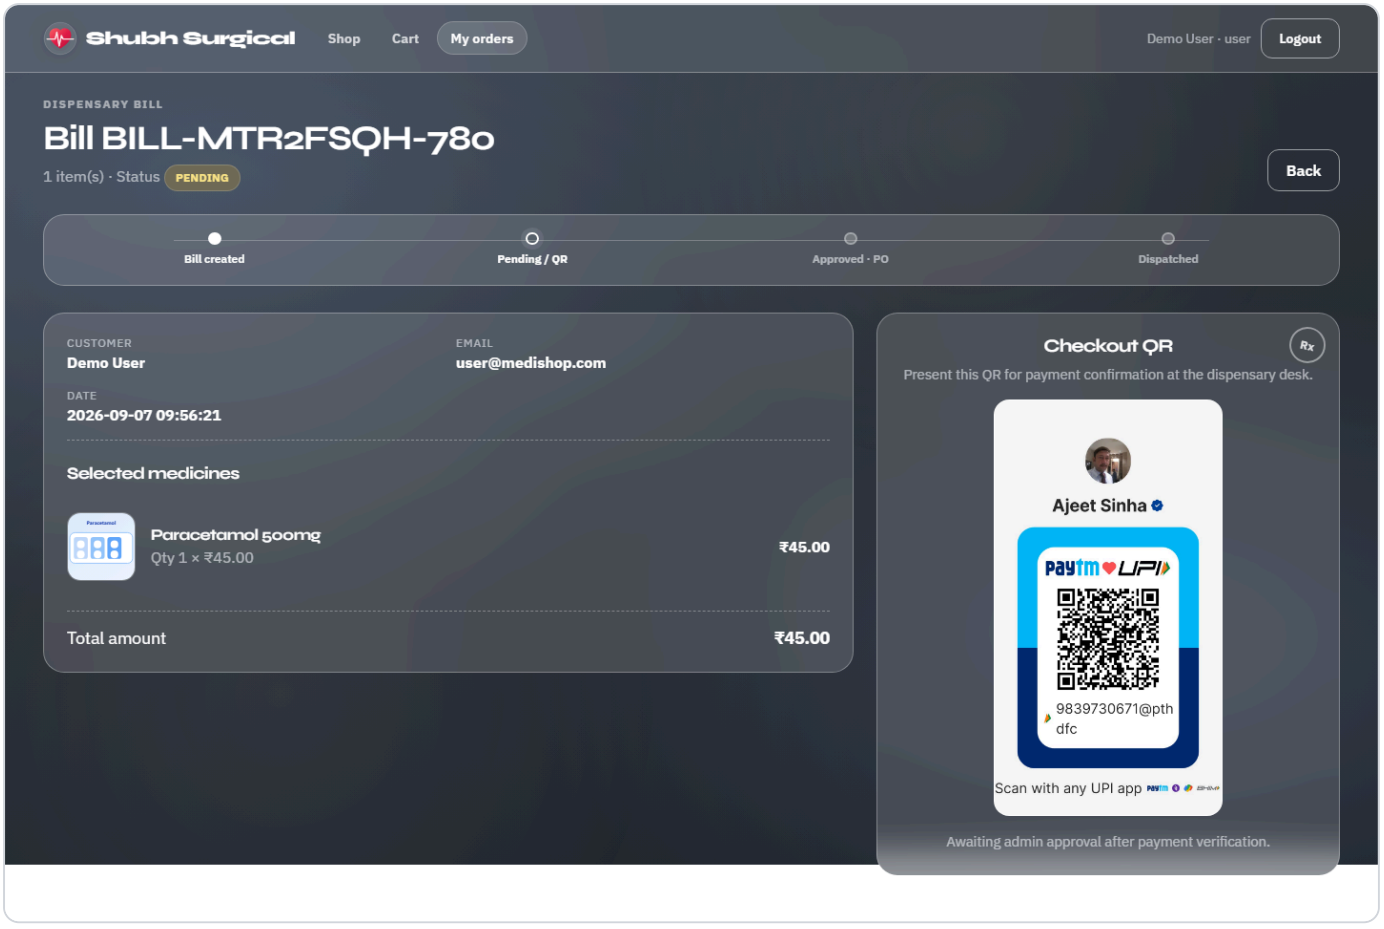

Screen: 6. Cart and place order

7. Bill and Checkout QR

> The bill lists medicines, quantities, and total. The Checkout QR is the UPI payment image. After payment, wait for admin approval.

How to do it

1. Read the bill number, items, and total amount.
2. Scan the **Checkout QR** and pay the billed amount.
3. Keep the bill number handy if the desk asks for confirmation.
4. Track the pipeline: Pending / QR → Approved → Dispatched.

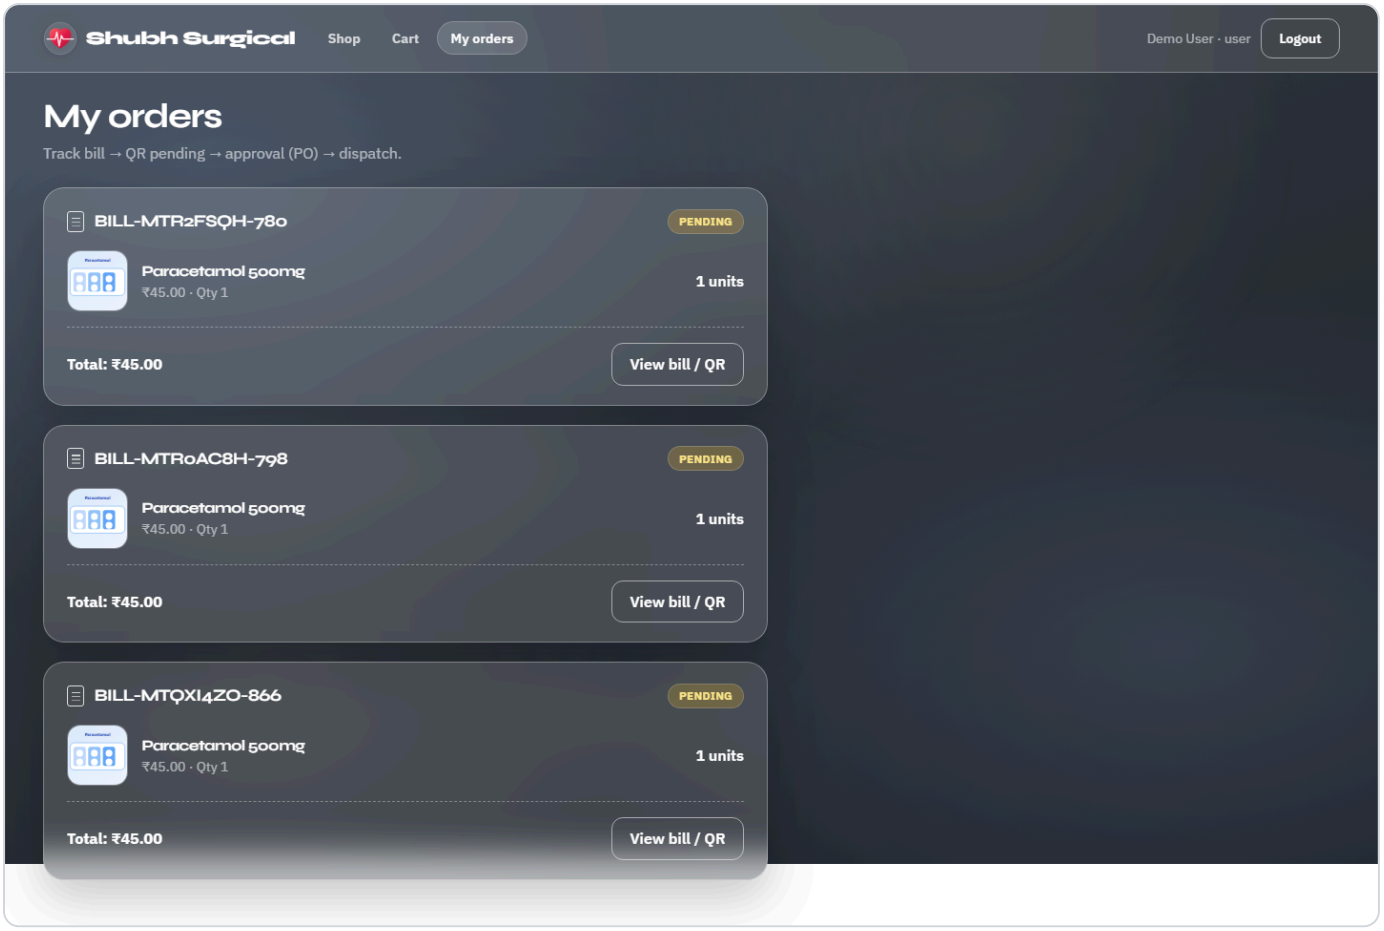

Screen: 7. Bill and Checkout QR

8. My Orders

> My Orders lists every bill for the signed-in customer with status, total, and a link back to the QR bill.

How to do it

1. Click **My orders** in the top bar.
2. Find the bill number and current status (pending, approved, dispatched, rejected, or cancelled).
3. Click **View bill / QR** to reopen payment QR and line items.

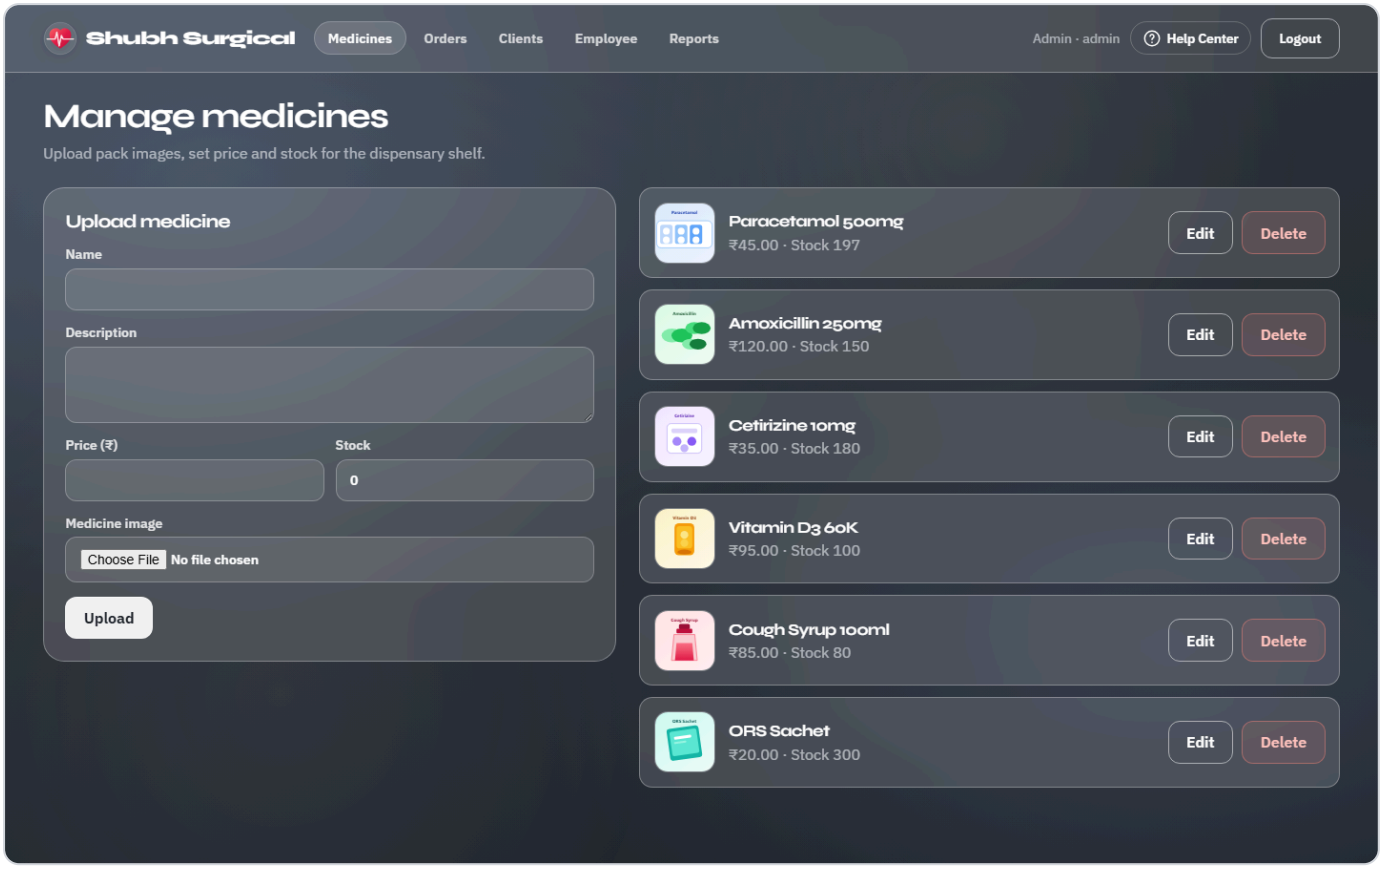

Screen: 8. My Orders

9. Admin: Help Center

> After admin login, Help Center sits next to Logout. It opens this training PDF in a new tab so staff always have the latest manual.

How to do it

1. Sign in as admin.
2. In the top-right, next to Logout, click **Help Center** (question-mark icon).
3. The latest user manual PDF opens in a new browser tab.
4. Use it for classroom training and for looking up any screen in this document.

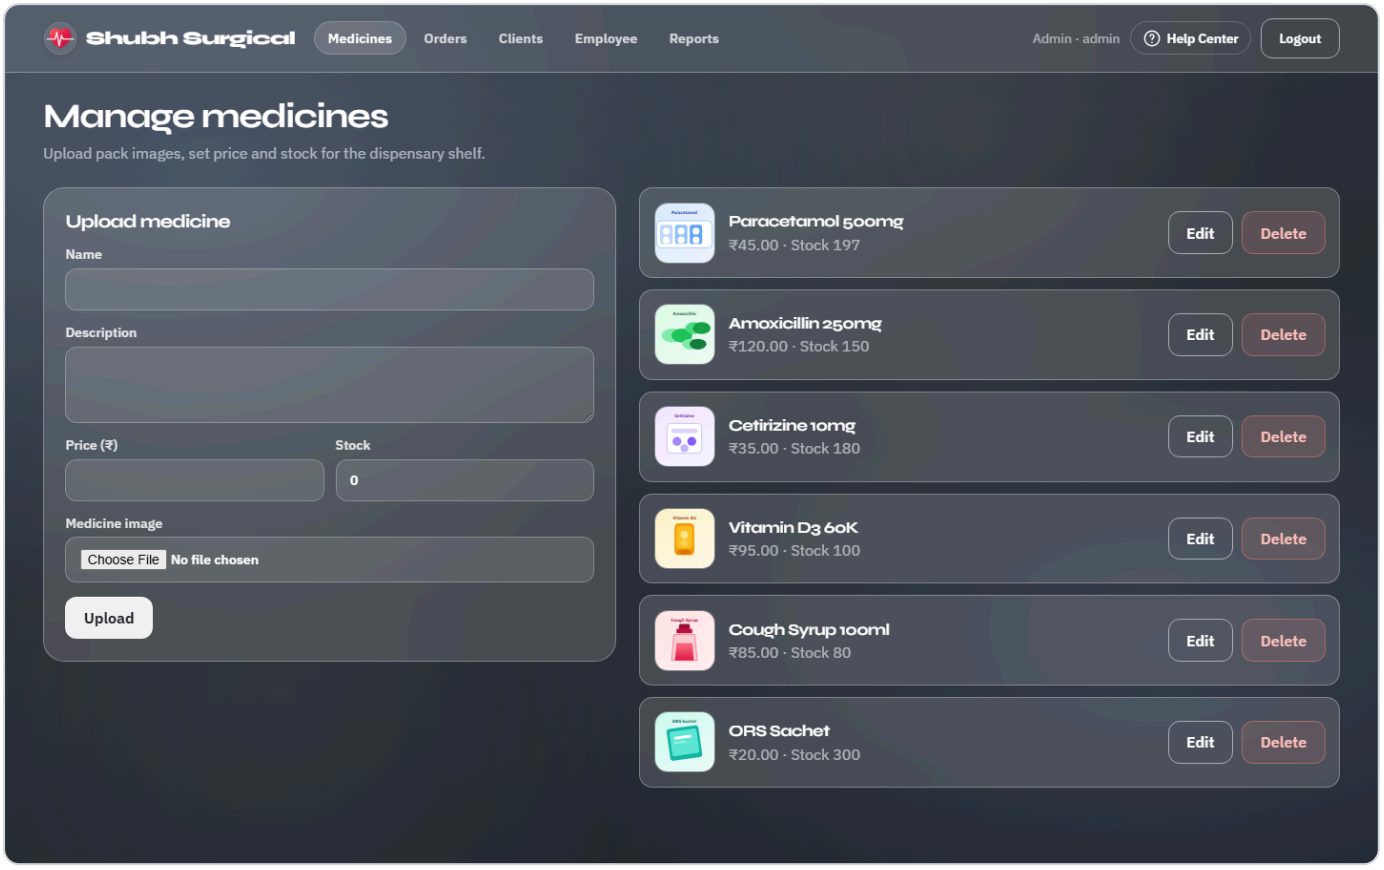

Screen: 9. Admin: Help Center

10. Admin: manage medicines

> Administrators maintain the catalogue: name, description, price, stock, and pack image. Admins do not shop or checkout.

How to do it

1. Sign in as admin. Open **Medicines**.
2. Fill Upload medicine: name, description, price, stock, and image file.
3. Click **Upload**. The item appears on the customer Shop page.
4. Use **Edit** to change details, or **Delete** to remove a product.

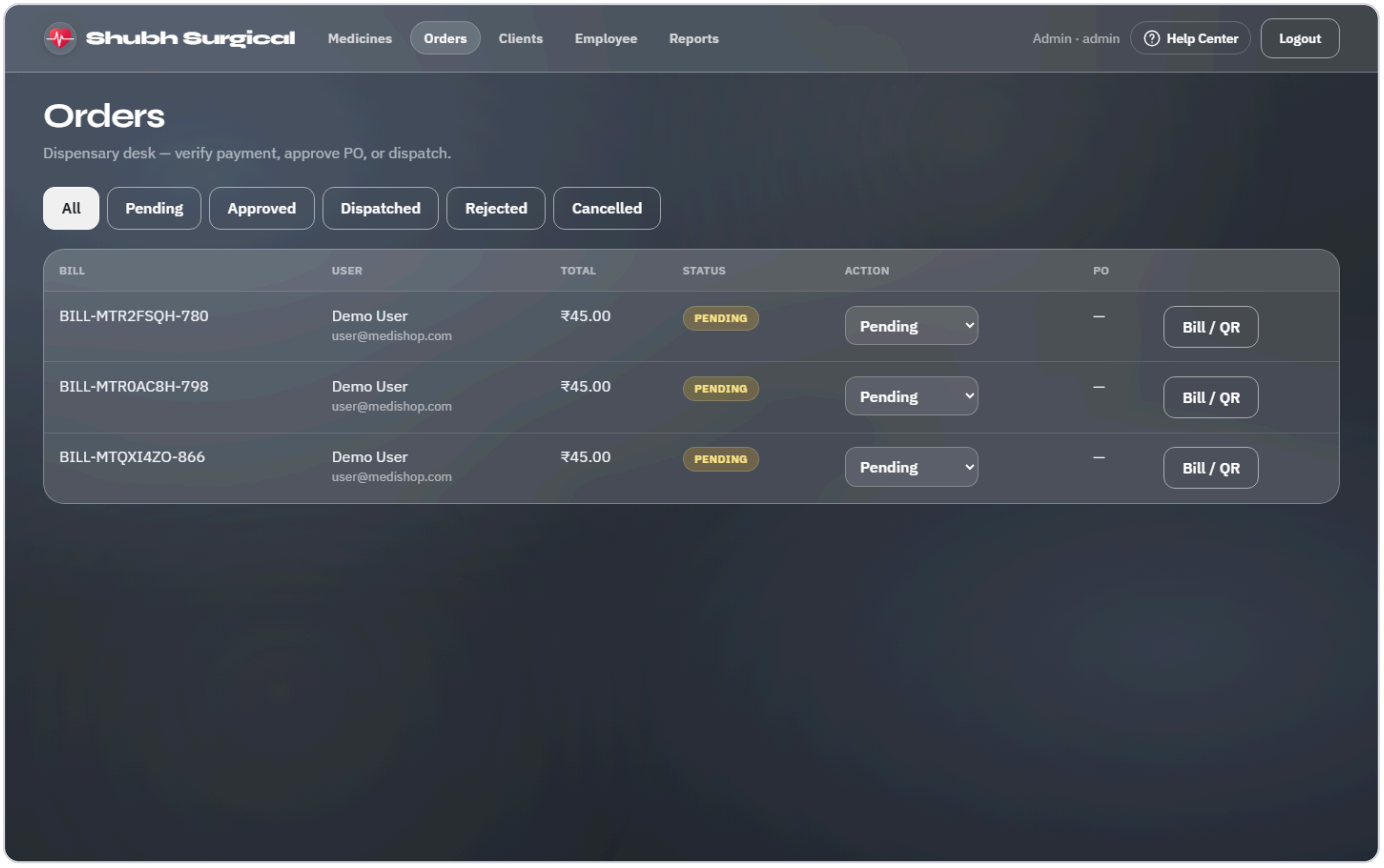

Screen: 10. Admin: manage medicines

11. Admin: orders desk

> This is the dispensary desk. Filter by status, open the bill, and change the order action after payment is verified.

How to do it

1. Open **Orders**. Use filters: All, Pending, Approved, Dispatched, Rejected, Cancelled.
2. Open **Bill / QR** to see items and amount.
3. On a pending order choose **Approve & generate PO** or **Reject order**.
4. On an approved order click **Mark ready to dispatch** when packed.
5. The Action dropdown on the list can also move status (Pending, Approved, Dispatch, Reject).

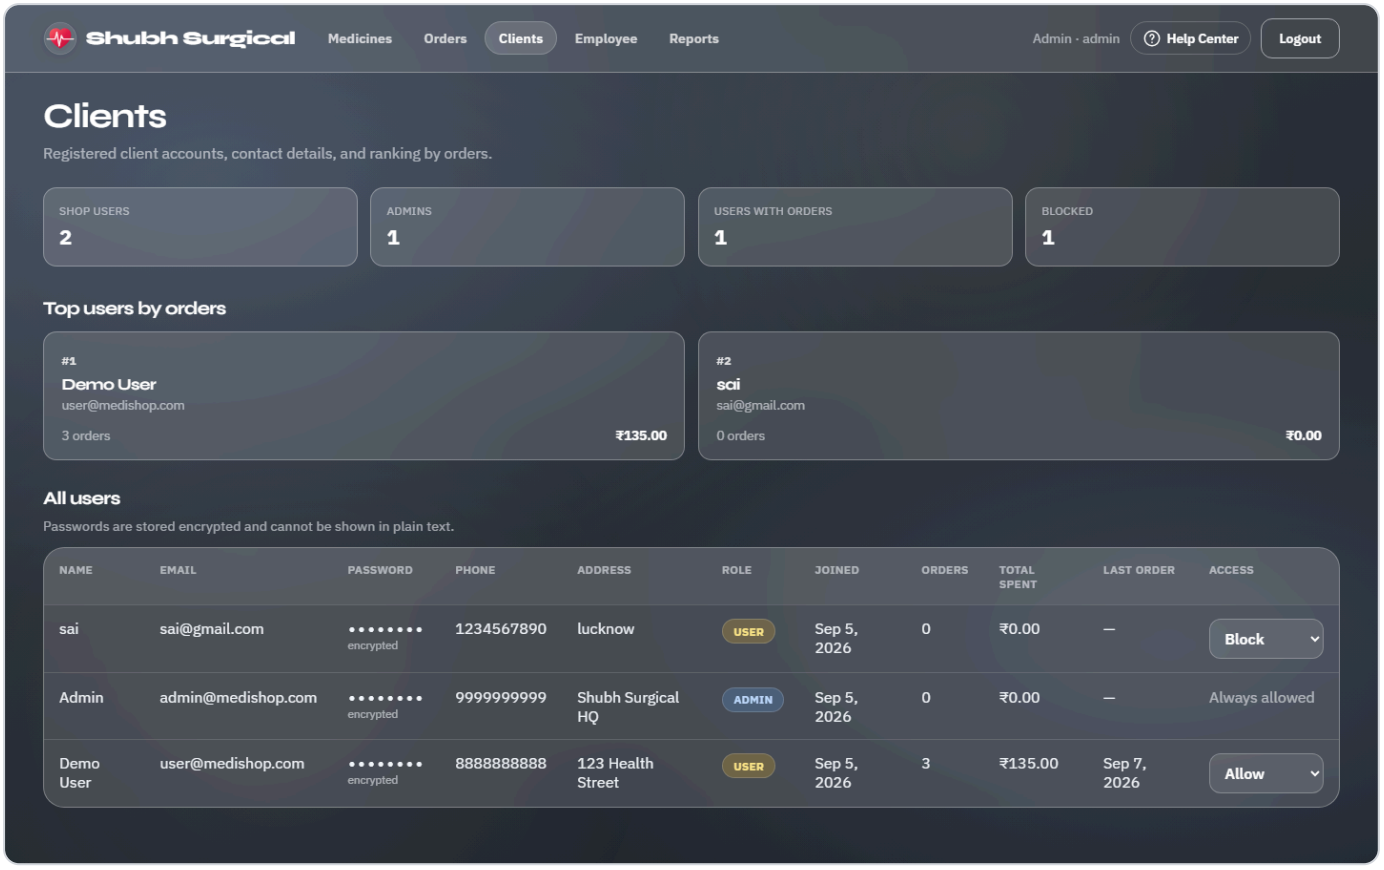

Screen: 11. Admin: orders desk

12. Admin: Clients

> Clients (formerly Users detail) lists every registered shop account, contact fields, order ranking, and access. Passwords are encrypted and cannot be shown in plain text.

How to do it

1. Open **Clients** in the admin nav (before Employee / Reports).
2. Review Top users by orders and the full client table (name, email, phone, address, role, joined date, orders, spend).
3. For a shop client, set the Access dropdown to **Block** or **Allow**.
4. A blocked client cannot sign in until an admin allows them again. Admin accounts cannot be blocked.

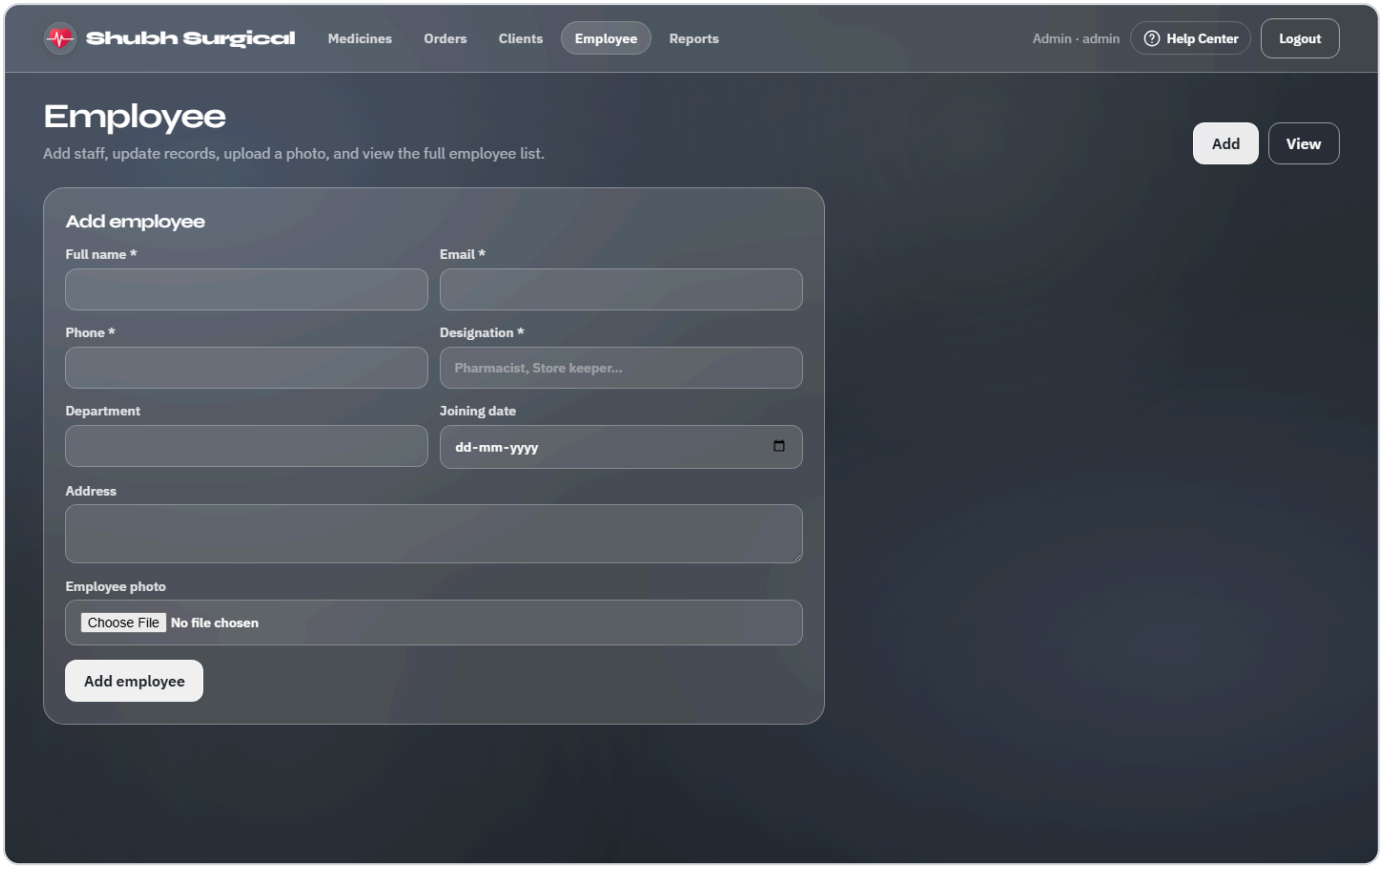

Screen: 12. Admin: Clients

13. Admin: Employee — add

> Employee sits in the admin nav before Reports. Required fields are name, email, phone, and designation. You may also add department, joining date, address, and a photo.

How to do it

1. Open **Employee**.
2. Stay on **Add** (default). Fill the required fields marked *.
3. Optionally choose an employee photo (image file).
4. Click **Add employee**. The record is saved and you can open View.

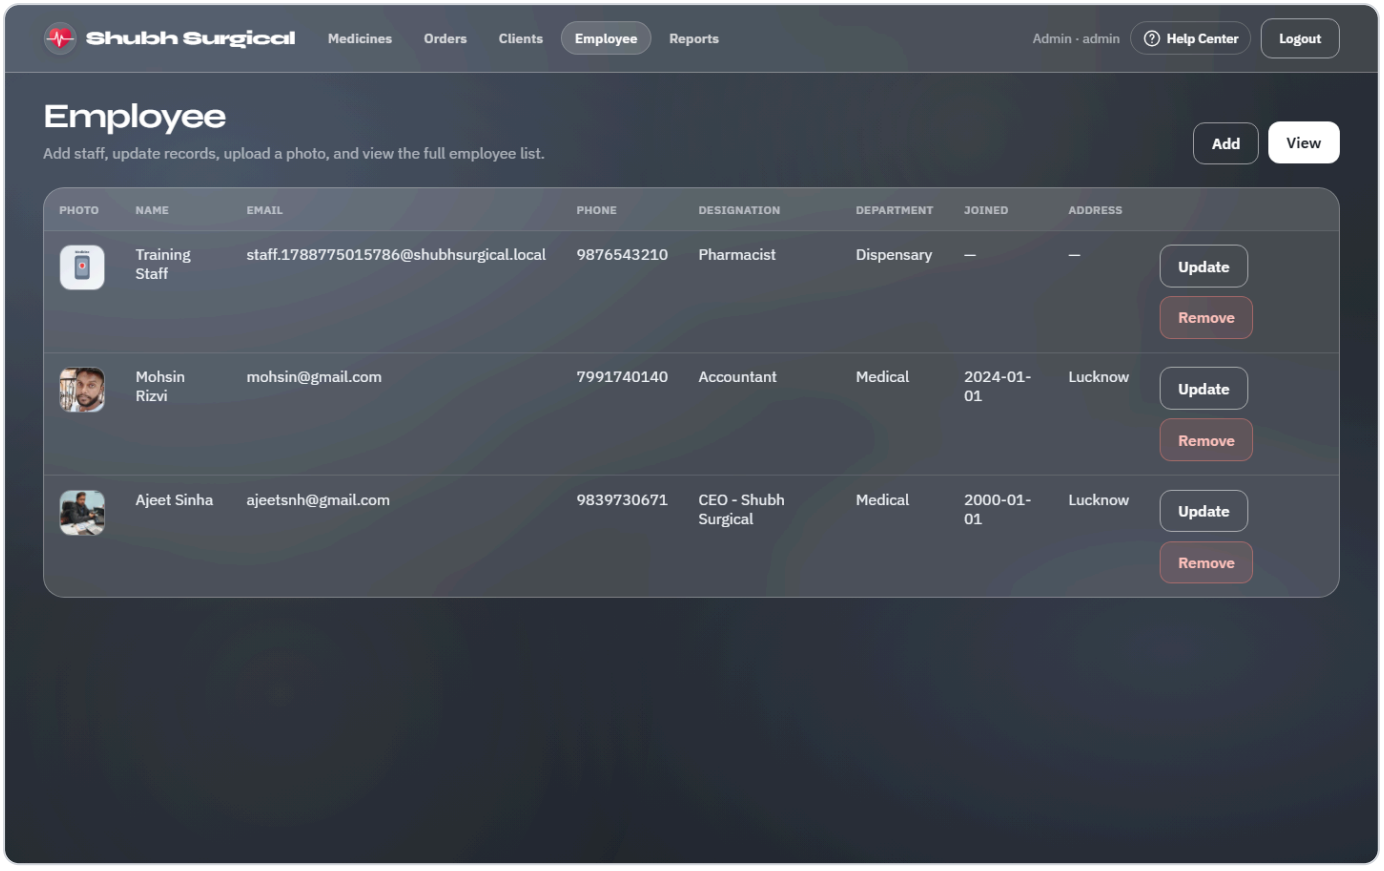

Screen: 13. Admin: Employee — add

14. Admin: Employee — view, update, remove

> View shows every employee in a table with photo and details. Update loads the form; Remove deletes the record.

How to do it

1. Click **View** to see the full employee list.
2. Click **Update** on a row to edit details or replace the photo, then save.
3. Click **Remove** and confirm to delete that employee.

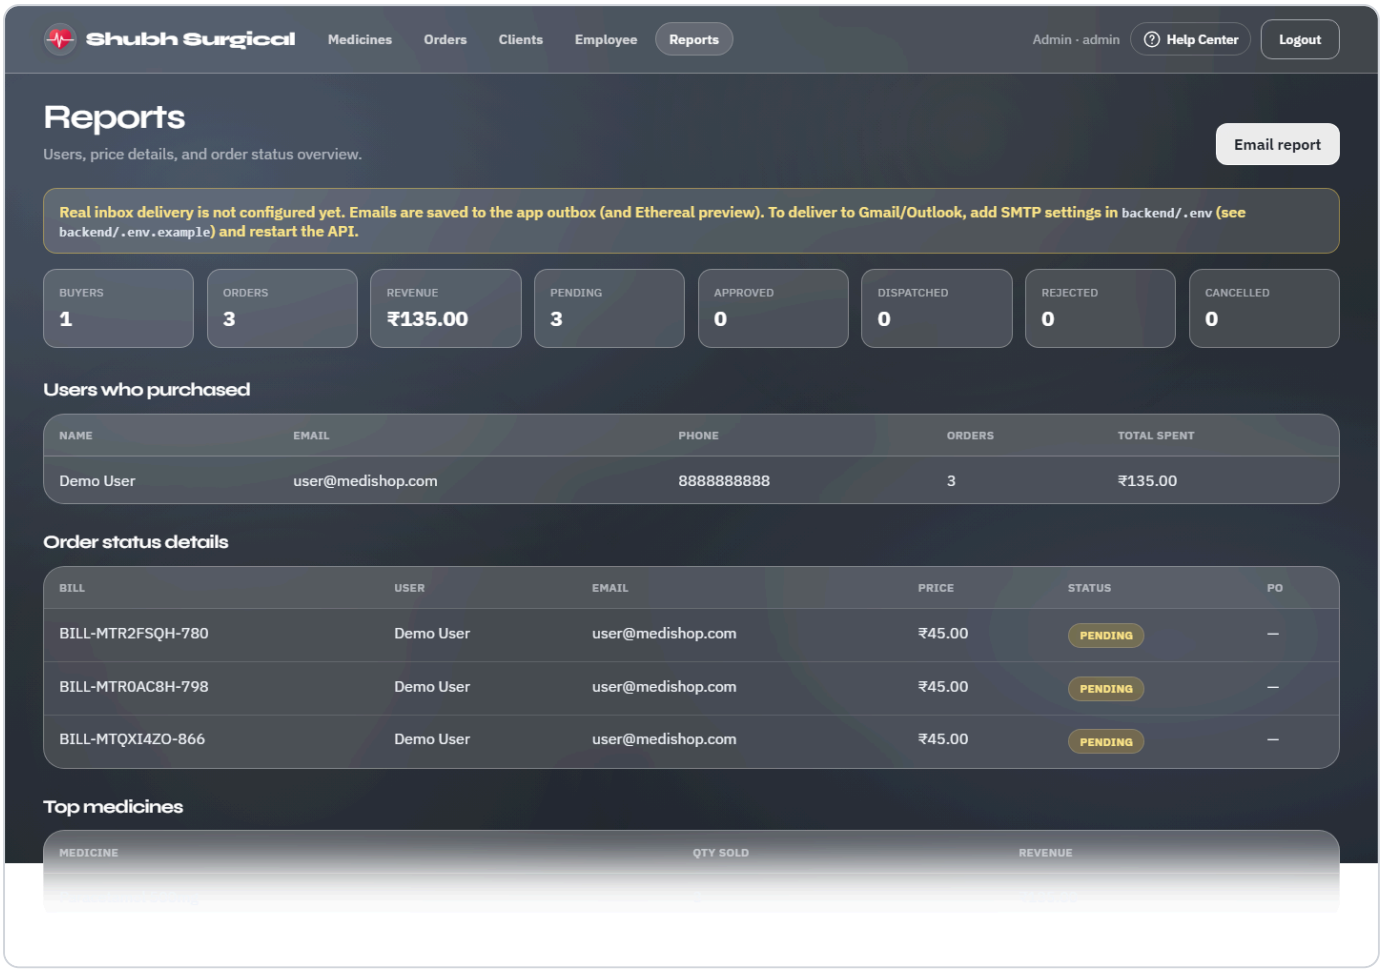

Screen: 14. Admin: Employee — view, update, remove

15. Admin: reports

> Reports summarise buyers, revenue, and order statuses. Email report saves or sends a copy for management.

How to do it

1. Open **Reports**.
2. Read the stat cards (buyers, orders, revenue, pending, approved, dispatched, rejected, cancelled).
3. Scroll for users who purchased, order status details, and top medicines.
4. Click **Email report**, enter an email id, and Send. Without SMTP, the report is saved to the local outbox and opened as a preview.

Screen: 15. Admin: reports

16. Order status meaning (quick reference)

Status	Meaning for training
pending	Bill and QR created. Waiting for payment check.
approved	Payment accepted. Purchase Order (PO) number is generated.
dispatched	Order packed and ready / sent out.
rejected	Admin declined the order (for example payment not matching).
cancelled	Order cancelled and will not proceed.

17. Feature map (all screens)

Who	Menu	What it does
Guest	Catalogue, Login, Register	Browse stock; create or open an account
Customer	Shop, Cart, My orders	Order medicines, pay by QR, track status
Admin	Medicines	Upload, edit, delete catalogue items
Admin	Orders	Approve, reject, dispatch bills
Admin	Clients	View customer details; block or allow login
Admin	Employee	Add, view, update, remove staff with photo
Admin	Reports	Sales stats and email report
Admin	Help Center	Opens this training PDF

18. Training checklist

1. Open Register and Sign in and confirm matching left branding plus the slogan.
2. Register a new customer and confirm Shop + Cart appear (not admin links).
3. Add two medicines, change quantity, place order, scan/view Checkout QR.
4. Log in as admin, find the pending bill, approve it, note the PO, then dispatch.
5. Open **Clients**, block the demo customer, confirm the blocked login message, then Allow again.
6. Open **Employee**, add a staff record with photo, View the list, Update, then practise Remove if needed.
7. Open Reports and practise Email report (outbox is acceptable in training).
8. Click **Help Center** next to Logout and confirm this latest PDF opens.

End of training manual — Shubh Surgical. Version 2.0 — 7/9/2026.
